

Mission-focused, security-first software, data, and AI engineering for the intelligence and national-security community – SIGINT, cyber, and mission data.

DIFFERENTIATORS

- High-performing teams, stood up in a fraction of the time
- Senior operators who lead from the front, invested in your mission
- CISSP-certified – security-first engineering & risk advisory
- One team for the full stack: software, data, cloud, AI, and cybersecurity
- Developing AI since 2012 – well before the GenAI wave

CAPABILITIES

Data Engineering & Big Data

Postgres, MongoDB, Hadoop, and Apache Spark. Pipelines, large-scale processing, migration, and analytics that turn big data into real-time insight.

Software Engineering

New systems, app development, and legacy modernization – scalable, performant front-end and back-end applications in Python, C/C++, and full-stack web.

Cloud & Infrastructure

Secure cloud and on-premise infrastructure with deep Kubernetes experience for enterprise-scale data and mission systems.

AI, Machine Learning & RAG

Developing AI since 2012, long before the GenAI wave. Advanced ML and retrieval-augmented generation (RAG) that goes well beyond chatbots – automation, analytics, and intelligent decision-making.

Cybersecurity, Risk & Advisory

Security-first engineering and CISSP-backed risk advisory, led in-house by our CIO – helping agencies manage cyber and organizational risk, with the network to assemble cleared cyber talent.

LEADERSHIP

Anthony Toreson

Founder & CEO · Software Engineering

A former U.S. Army Military Intelligence systems integrator (33W / 35T), Anthony brings 20+ years of engineering leadership. He holds a Master of Computer Science (MCS) and an MBA from Rice University, and a CISSP. He previously held a TS/SCI clearance (lapsed, reinstatable).

Michael Meis

Chief Information Officer · Cybersecurity

A U.S. Army veteran and cybersecurity leader with nearly two decades across government, financial services, and healthcare – including federal security operations. He leads the firm's cybersecurity and risk practice and holds an MBA and M.S. in Cyber Security & Information Assurance.

Let's talk about your mission.
